Here he will have and exhibit the wild animals and fish of Florida, as a tourist attraction, with possibly other attractions, and expects to make it a very fine establishment.

**Missionary To Return To S. A. Field In Columbia**  
For the past few Sunday evenings, the Everglades Pres-

byterian church congregation has been delighted with the preaching of a young missionary minister by the name of Hunter Norwood, of West Palm Beach, who has been home on vacation furlough from Columbia, South America.

On Sunday night Rev. Hunter gave an excellent sermon, and announced that he and his family, would soon be returning to South America, where they had previously served a four year assignment, as he had again been assigned to his former field of labor for another four years.

The Southern Presbyterian church, which was formed in 1890, and which had missionary

work as one of its leading projects, now holds a leading position in missionary ranks, and South America with Brazil and Colombia as the leading fields. It is under this church management that Rev. Norwood is assigned his work and duties.

He states that he likes his field of work, winds the Spanish Indians' interests, people, and when they finally do adopt the Christian religion they become good and true workers.

## Odd Fellows Have Lodge Installation And Barbecue Feed

Owing to an accident in a fall, V. P. Otto, of West Palm Beach, district deputy of the Odd Fellows, was unable to serve in that capacity, at the installation of officers of Glades Lodge, No. 16, 1847 F. on the evening of January 22, but Harold Kiernan, officiated by special appointment. Other members of the Palm Beach lodge formed the installing team. Officers installed were: Noble Grand, J. K. Barlow; vice-grand, Paul Davidson, secretary, R. M. Hendry, Sr., treasurer, Donald McLaughlin and the following appointive officers: Supporters to the Noble Grand, I. E. Aspy and C. J. Pennington; Wardens, J. K. Barlow; conductor, J. K. Barlow; chaplain, E. L. Evans; scene supporters, G. C. Leathers and Robert Rasley; Guardian, W. F. Robertson. Supporters to the vice-grand, Owen W. Manning and Walter Collins.

Following the lodge session, a feast of barbecued ribs and bass fillet, with trimmings, were served. Three applications for membership were presented at meeting.

of Chicago, Waseca and Salap, which set all their tubers at one time and have tender and firmer skins than their parents, and will produce more and uniform sized potatoes. The Glades is a large blocky, white smooth skin potato, yielding 87 per cent No. 1's. Both other types are early bearing.

Glades farmers again have a thankful heart, over the fact that the threatened cold snap of the past week, did not reach down as far as this section, to the detriment of the potatoes. Bill Graber and other farmers in his type of farming, report that their root crops are coming along fine, and that at present market demand and prices are very satisfactory.

Commercial fishermen, who are water area farmers, will again be working their favorite fish lake, when the weather of the permitted area will by no means provide the hands that the formerly large nets need.

It will bring in many a dollar of income to the fisherfolk. Carloading week ending January 28, 1948

**Boards Take Action On Glades Matters**

The Palm Beach County Board of Commissioners at its meeting, this week, received an appeal from Commissioner Rabin, asking that additional maintenance funds be assigned to the West Palm Beach District, owing to the fact that the Pahokee and Belle Glade Hospitals, were no longer receiving Federal aid. The board granted an additional \$2000 a month for the purpose named, which gives the administration a total of \$800 a month on operating expenses.

As the District Welfare Association had given notice that it would no longer administer the Children's Receiving home at Lake Worth, which it has done for the past three years. The Board decided that it would take the institution under its

wing and operate it as in the past.

The Board of Public Instruction has invited E. L. Morphet, of Tallahassee, to return to West Palm Beach, for further discussion of the proposed school building program for the Odd Fellows, was unable to do so for such improvement purposes. This conference promises to be a most important one as the proposed high school for Belle Glade is one of the topics which will be up for animated discussion.

breed church, and also spent several days here. The church body also invited Rev. and Mrs. Vandewater, of the Community Methodist church and Rev. and Mrs. I. E. Eddy, of the Baptist church, as guests. A short program was staged in which each of the ministers present gave short talks, as well as some of the church officers. Carl Campbell presided as chairman.

On Wednesday night at the mid-week prayer service, Rev. Sheldon gave the evening message, and made a very good provision. The selection of a pastor is under consideration for the very near future.

Guests from out of town attending the Tuesday night gathering were Rev. and Mrs. Bryan West, Dr. and Mrs. H. W. McLaughlin and Louis Hawkins, of the Memorial church in West Palm Beach, and Mr. and Mrs. H. E. Honey of Lake Worth, who have been earnest workers in the establishment of the local church. Dr. McLaughlin, one of the best ministers of the church, was former president of the Church and Sunday School work. Rev. West also spoke encouragingly.

The men members of the church have started the digging of the excavation for the new church on the Pahokee road, which will be a one story, three bedroom dwelling, of very attractive design. It is to pay the high cost of contract work, the men decided to do this part of the work themselves, even if it did mean blisters, sore muscles, and weary bodies.

**Peter Paul DeMoya Gets 25 Year Pin**

Following World War I, a full bodied GI wanted by got off the train at Stuart because that's as far as the railroad would let him ride on the ticket he had.

After scrambling around with the next meal depending on the uncertainties of manual labor, this GI found work with the power company, or what passed for a power company at the time.

Peter Paul DeMoya, finally landed the Big Boss into letting him be the manager at Stuart—and he's been talking since the last process.

Peter Paul's conversation these days has the background of a Post President of the Legion, Past President of Rotary and Past President of the Palm Beach County Board of Commissioners. He was given the Glades territory for the Florida Power when it was sold and now, probably because of his ability displayed in the pioneering of the company, his company gave him a pin on his lapel.

permanence at the former's place and then endeavor to his place to strike without any profit to his place, for service rendered. The annual bank of the two companies was that local dealers claimed that with present loans, South Bay, Rader and Pahokee but operators were taking away the business from the local operators, and that under Belle Glade ordinance, the operators from the state Beverage Department, were making really tough on local dealers.

Another reason for passage, was that the city would collect in a considerable amount of money on the extra fee required.

## "Cupid On Parade"

Keen interest is being manifested in "Cupid on Parade" which promises to be the outstanding social event in the Valentine Season. This presentation, featuring the Valentine Theme, has created a great deal of speculation on the members of the couples selected to reign as King and Queen of Hearts.

The present Festival carrying Misses Margaret Williams, Evelyn Lee, Nell Thomas, Betty Alford and Ouida Hughes of Belle Glade and Miss Mary Mullis of Pahokee will serve as the Queen's maids, while Messrs. "Duke" Cunningham, Howard Armstrong, Landon Daub and Joe Murphy will sing the Kings Guard. Garlands of flowers held by the maids will form an archway under which Cupid, Master R. Young Creech III, will lead the King and Queen to their throne. Entertainment at the Court of Honor will be a tap dance by talented little Miss Roseanna Tharpe, Miss Geneva Thelen of Cleveland will sing "Sweetheart on Parade" and "Ballroom Dance". Professional talent will be exhibited by Miss Elaine Gough, Ballerina.

The King and Queen will descend from their throne and lead their subjects in a Grand March followed by a Paul Jones. There will be plenty of dancing for young and old.

Numbered hearts will be given to each person at the door. The evening will be presented with a prize. A spectacular pagant and that is being directed by Miss Imogene Fontaine is a parade to the dance for

Lauderdale, Coral Gables, Tampa, Ocala, Jacksonville, Tampa and Pensacola. A large delegation from Belle Glade will attend the lodge session at West Palm Beach, this Friday night, to meet this high officer.

The anniversary was further featured by the serving of a fine feast at the scene of the new pit and shed which has just been erected on the grounds to the southeast of the lodge home. Ten brothers of the lodge, headed by Carl Cone, as chief roaster, certainly did throw a fine feed.

Bill Wall stated that the record of Belle Glade lodge during the year of its existence had made a high record in Elk circles, both in the way of membership upbuilding, financing, and of obtaining of a home, a record which has received notice through out the national order. Frank O'Connell's address to the class was a gem of oratory and lodge information, and he was given high commendation for his address and his ritualistic ability.

The lodge has somewhat of a record, in that in its membership are six brothers, namely the Kirelman brothers.

MEMBERSHIP CAMPAIGN (Continued From Page 1) single force for material promotion of the tourist, industrial and agricultural phases of the County's development for the past several years.

A unique activity of the Board has been the clinics for legislators from County and State thru Congressional representatives. These meetings, scheduled and organized with the view of giving the elected representatives a unified and concise report of community and County wants and needs. It has been a task to conscientious representatives and greatly added communities in securing aid.

Flood Control in southeast Florida would not have been near as much of a certainty today without the efforts of this Board. It has spent money and unbelievable amounts of time of its members in meetings, conferences, trips and study.

The Everglades Experiment Station fight became the fight of the Board with success; varied and conflicting requests for funds thru out the County have been channelled by mutual agreement thru a committee for concerted action.

Emergency Flood relief was largely coordinated and channelled thru its agencies; Rancie has been brought closer to a major agricultural industry thru its activities.

Your Resources Board deserves your support, if only for a \$2.50 membership, for it is working daily for those things which this pioneering community needs—and its work is effective.

## OBSERVATION

Continued from page 1 must to pay. Crafting materials are also per cent higher than before the war, and labor while low, \$1.50 a day, still must figure in the production summary. Labor union demands, robbery prices, at the docks, is one of the sources of Cuba.

The Pange Packing company, at Dade City, now claims that it has the largest plant of its kind in the world and that it will use ten million cans of No. 10, filled with segmented citrus, canned juice, aside from the by-products it produces out of citrus.

The coming May primaries for nomination of state county officers, cannot justly be sent quite an active political field, and if all who are nominated as candidates and actually qualify for office, there will be plenty of candidates in the field. One of the officers which may be of the greatest importance is that of Constable in the Belle Glade, South Bay, and the surrounding area, now filled by Roy Whitlock.

The State Park Commission at present has ten complete state parks under its supervision, each and all having some special attraction, and has as many more in contemplation, besides numerous wayside rest and picnic locations. One of the proposed new parks is to be at the Taylor Creek Battle field, six miles south of Okeechobee, which has historic appeal. The Mayakka River park east of Sarasota, is a popular resort for the winter people, because it has so many fine attractions, especially its fishing facilities. Highland Hammock park at Sebring is also another most attractive park.

Take a trip out Palm Beach road, and do a bit of a gawking around, and you will find what the term "finger fishing" means. Scores of negroes, with their quaint and varied type fishing outfits, are to be found busy angling for the fish in the canal. Fish, these days, mean a white bait for the colored people. White bait too high price to use on their tables.

A report from Indiantown is to the effect that 90 deer were known to have been killed in the "Pine" or "Hungry" lands in that section and leading down into the Loxahatchee section of Palm Beach county during the recently closed hunting season. Those who know state that that many deer were killed in the Hendry-Collier section, which has always been prime hunting ground for local hunters.

The purchases of many thousands of acres of land over north of Loxahatchee to the Martin county territory, having been purchased by the State Game Commission, will now be included in that reservation, and next year may not be open to hunting of any type.

Thus degree by degree open hunting territory is becoming more scarce. However, in time, even under regulation, with licensed hunting periods granted, there should be excellent

The fact there are so many deer in Pennsylvania has made it possible for eastern Ohio hunters, to be granted a four to six day season, on deer, which are everywhere from the Pennsylvania section.

## 3 Unions Block Labor Peace—Refuse Wage Boost Already Accepted by 19 Other Railroad Unions!

The Brotherhood of Locomotive Engineers, Brotherhood of Locomotive Firemen and Engineers and the Switchmen's Union of North America, representing 125,000 railroad employees, have refused to accept the offer of the Railroads of a wage increase of 15%.

This is the same increase awarded 1,000,000 non-operating employees by an arbitration board in September, 1947.

This is the same increase accepted by 175,000 conductors, trainmen and switchmen by agreement on November 14, 1947.

Agreements have been made with 1,175,000 employees, represented by nine unions. But these three unions, representing only 125,000 men, are trying to get more. They are demanding also many new working rules not embraced in the settlement with the conductors and trainmen.

Incidentally, the Switchmen's Union of North America represents only about 7% of all railroad switchmen, the other 93% being represented by the Brotherhood of Railroad Trainmen and covered by the settlement with that union.

**Strike Threat**

The leaders of these three unions spread a strike talk, while negotiations were still in progress. This is not a secret vote but is taken by union leaders and votes are signed by the employees in the presence of representatives of the railroad.

When direct negotiations failed, the leaders of these three unions refused to let the railroad in asking the National Mediation Board to attempt to settle the dispute, but the Board took jurisdiction at the request of the carriers and has been extremely attempting since November 24, 1947, to bring about a settlement. The Board on January 15, 1948, announced its inability to reach a mediation settlement. The leaders of the unions rejected the request of the Mediation Board to arbitrate. The railroad accepted.

**What Now?**

The Unions have refused to arbitrate, the Railway Labor Act provides for the appointment of a fact-finding board by the President.

The railroads feel it is due shippers, passengers, employees, stockholders, and the general public to know that through-out these negotiations and in mediation, they have not only exerted every effort to reach a fair and reasonable settlement, but they have also met every requirement of the Railway Labor Act respecting the negotiation, mediation, and arbitration of labor disputes.

It seems unthinkable that these three unions, representing less than 10 per cent of railroad

## Telephone Folks really did a job in '47

In spite of the continued scarcity of materials and equipment and in the face of rising costs all along the line, Southern Bell went right ahead in 1947 improving and expanding your telephone service. It was a year of humming activity as telephone folks went all out to bring you better telephone service.

There's still a tremendous job to be done. More buildings and vast quantities of equipment are needed to further improve and expand the service. If telephone earnings are such as will attract the necessary new capital to pay for continued construction, you can look forward to further progress in meeting your telephone needs in '48.
